

Construction businesses save \$44,500 annually with our People Risk Management solution.

Typical Construction Issues We Resolve

-  **OSHA Health & Safety Working Conditions**
 Are there special requirements for restroom facilities based on the number of employees? Must we provide drinking water to our outdoor workers?
-  **Travel Time**
 We have a lot of employees who do not have a defined worksite and drive our company trucks to each site. Do we have to pay for the time driving to the site, since it is different every morning? What about employees who go to different sites during the workday?
-  **FLSA**
 We are a small family-owned construction business and have questions about paying family members. Do we have to pay a child or parent prevailing wage on a public works job? Do we have to pay a spouse a wage for doing work?
-  **ADA/Alcohol**
 An employee admitted to her supervisor she has a problem with alcohol, but says she does not drink while working. Can we require alcohol testing on the job since she works in a safety sensitive position, drives a company vehicle to job sites, and performs work as a construction inspector?
